

ALVA TT

CARTRIDGE ALIGNMENT PROTRACTOR

The procedure for replacing the Alva MC cartridge on the Alva TT Direct Drive turntable isn't difficult, but it is delicate. If you're not comfortable carrying it out yourself, please contact your Cambridge Audio dealer.

Before you begin, we recommend you take time to watch our instructional video here: www.cambridgeaudio.com/tt/setup

Cartridge alignment protractor

1. Place the protractor over the record spindle.
2. Gently place the needle on the cross.
3. Move the cartridge backwards or forwards until the headshell is parallel with the lines.
4. Ensure that the cartridge is squarely aligned in the headshell and then tighten the screws.
